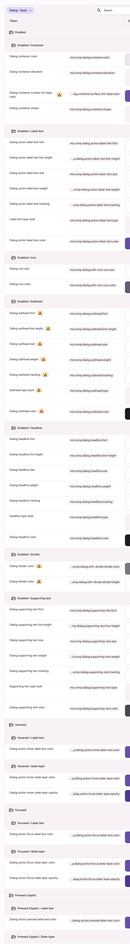
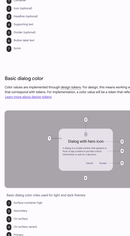
Tokens & specs

Select a component variant below to see its elements, attributes, tokens, and their values.



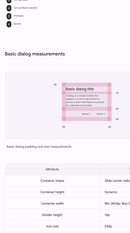
Basic dialogs



1. Container
2. Icon (optional)
3. Headline
4. Supporting text
5. Divider (optional)
6. Button label text
7. Icon

Basic dialog color

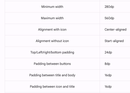
Color values are implemented through design tokens. For design, this means working with color values that correspond with tokens. For implementation, a color value will be a token that references a value. Learn more about design tokens



Basic dialog color roles used for light and dark themes:

1. Surface container high
2. Secondary
3. On surface
4. On surface variant
5. Primary
6. Scrim

Basic dialog measurements



Basic dialog padding and size measurements

Attribute	Value
Container shape	28dp corner radius
Container height	Dynamic
Container width	Min 280dp; Max 560dp
Divider height	1dp
Icon size	24dp
Minimum width	280dp
Maximum width	560dp
Alignment with icon	Center aligned
Alignment without icon	Start aligned
Top/Left/Right/bottom padding	24dp
Padding between buttons	8dp
Padding between title and body	16dp
Padding between icon and title	16dp
Padding between body and actions	24dp

Full-screen dialogs

1. Container
2. Header
3. Icon (close affordance)
4. Headline (optional)
5. Text button
6. Divider (optional)
