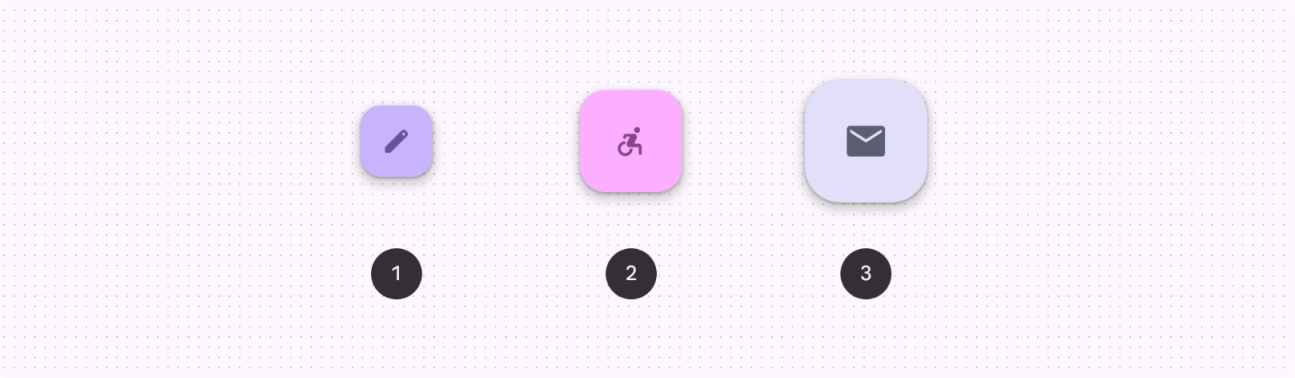
FAB

Floating action buttons (FABs) help people take primary actions

Resources +4

- Use a FAB for the most common or important action on a screen
- Make sure the icon in a FAB is clear and understandable
- FABs persist on the screen when content is scrolling
- Three variants: FAB, medium FAB, large FAB



1 FAB

2 Medium FAB

3 Large FAB

M3 Expressive update

May 2025

The FAB has new sizes to match the extended FAB and more color options. The small FAB is no longer recommended. More on M3 Expressive

Variants and naming:

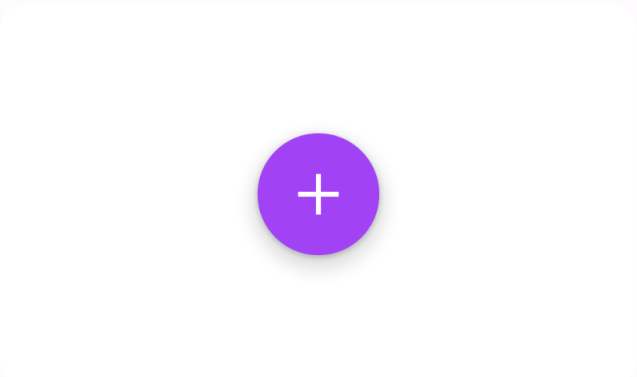
- Added **medium** FAB size
- **Small** FAB size is no longer recommended
- FAB and large FAB sizes are unchanged
- FAB variants are based on size, not color

Color:

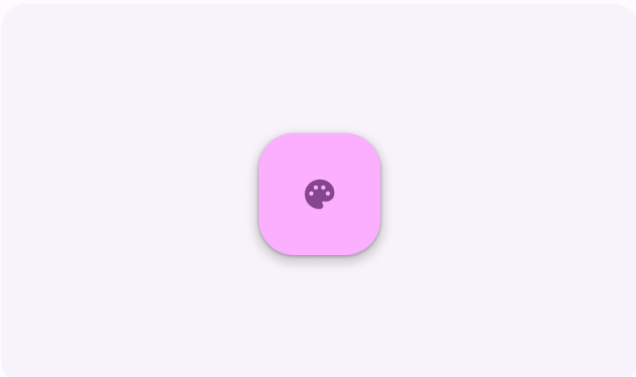
- Added tone color styles:
  - Primary
  - Secondary
  - Tertiary
- Renamed existing tonal color styles to match their token names:
  - **Primary** to **Primary container**
  - **Secondary** to **Secondary container**
  - **Tertiary** to **Tertiary container**
  - The values haven't changed
- Surface color FABs are no longer recommended

FABs have updated colors and sizes

Differences from M2



M2: FABs are circles and always have a drop shadow



M3: FABs have a boxier shape, can use dynamic color, and include a new large FAB variation
