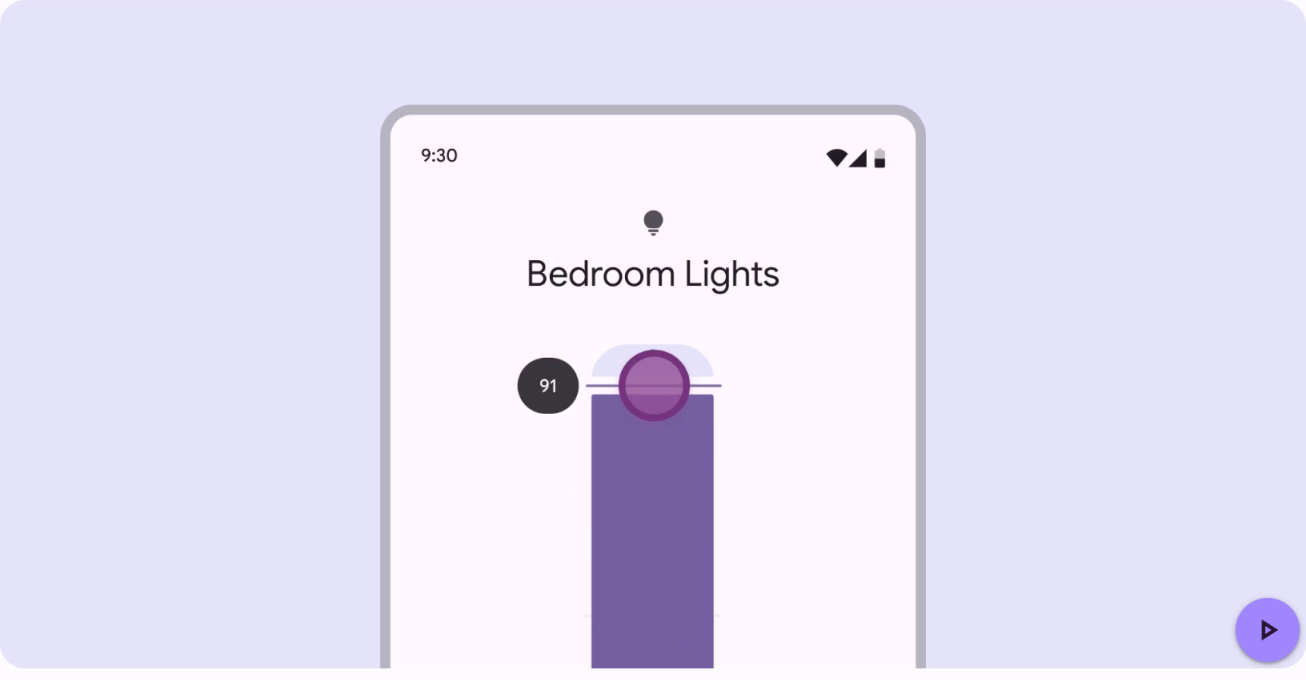
Sliders

Sliders let users make selections from a range of values

Resources +4

- Three variants: Standard, centered, range
- Has five sizes, vertical and horizontal orientation, and an optional inset icon
- Sliders should present the full range of available values
- The slider value should take effect immediately



Sliders change values along a range

May 2025

The slider includes expressive configurations for orientation, shape sizes, and an inset icon. More on M3 Expressive

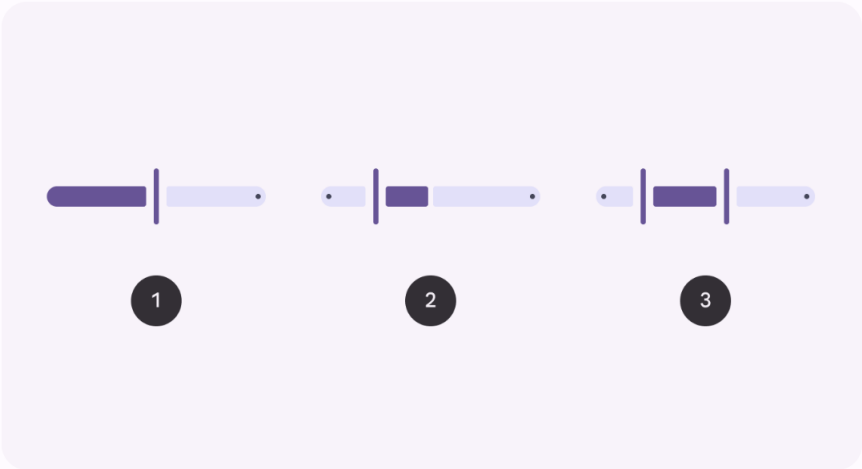
Updated on MDC-Android and Jetpack Compose.

Variants and naming:

- Changed **continuous** slider to **standard** slider
- The **discrete** slider is now the **stops** configuration

New configurations:

- Orientation: Horizontal, vertical
- Optional inset icon (standard slider only)
- Sizes: XS (existing default), S, M, L, XL



1 Standard slider

2 Centered slider

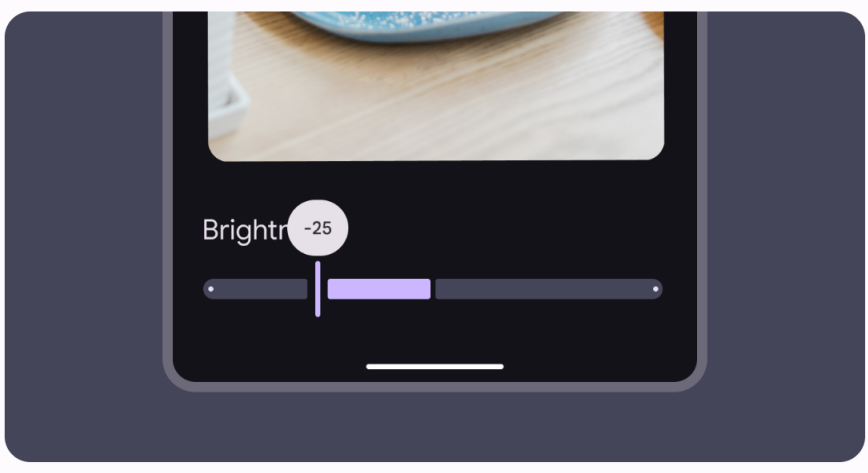
3 Range slider

Previous updates

Visual refresh to improve non-text contrast

Dec 2023: Updated on MDC-Android and Jetpack Compose.

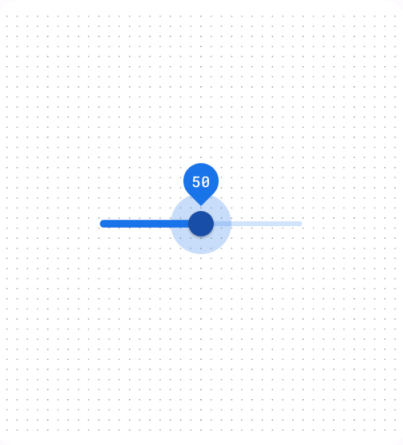
- **Configuration:** Added centered configuration and range selection
- **Shape:** New shape for slider tracks and handles. Slider elements change shape when selected.
- **Motion:** Slider handle adjusts width upon selection. Slider tracks adjust in shape when sliding to the edge.
- **Color:** Refreshed color mappings



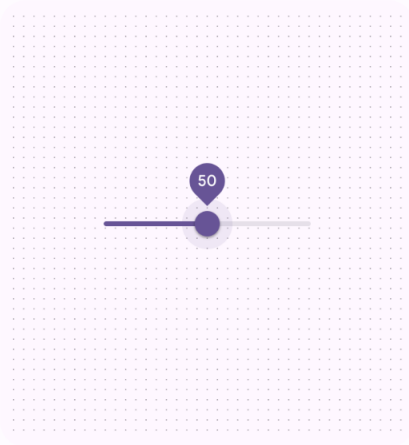
M3 visual refresh: Sliders have a stop indicator, larger label text, and a vertical handle that narrows when pressed. Centered sliders start from the middle instead of the leading edge.

Differences from M2

- **Color**: New color mappings and compatibility with dynamic color



M2: Sliders have a circular handle and a small label when pressed



M3: Sliders have new color mappings and support dynamic color
