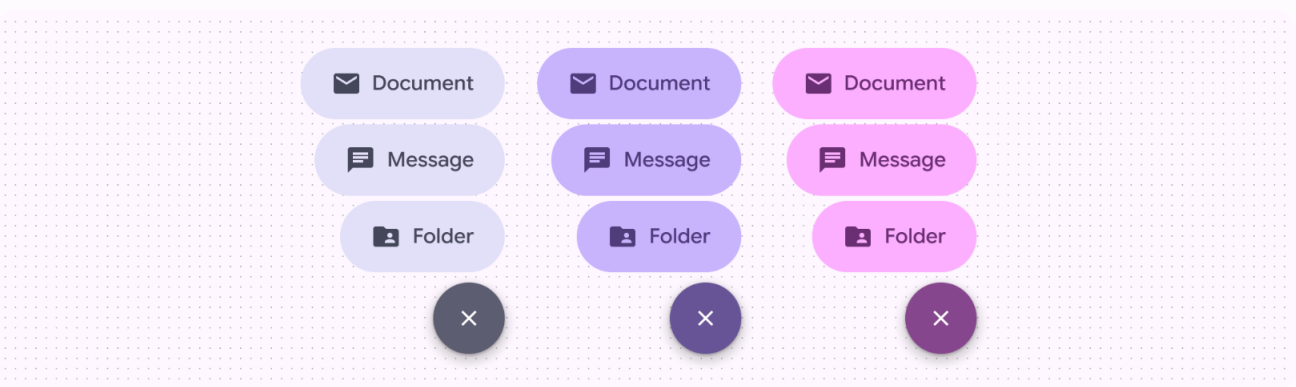
FAB menu

The floating action button (FAB) menu opens from a FAB to display multiple related actions

Resources

- Opens from a FAB to show 2–6 related actions floating on screen
- One FAB menu size for all sizes of FABs
- Not used with extended FABs
- Available in primary, secondary, and tertiary color sets



The FAB menu comes in three color sets: primary, secondary, tertiary

M3 Expressive update

May 2025

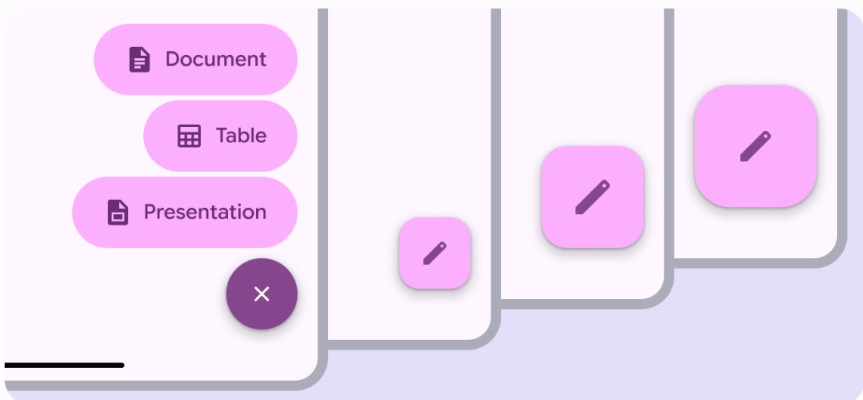
The FAB menu adds more options to the FAB. It should replace the speed dial and any usage of stacked small FABs. More on M3 Expressive

New component added to catalog:

- One menu size that pairs with any FAB
- Replaces any usage of stacked small FABs

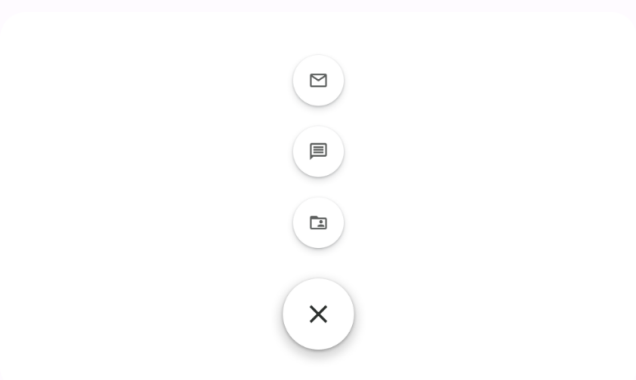
Color:

- Contrasting close button and item colors
- Supports dynamic color
- Compatible with any FAB color style

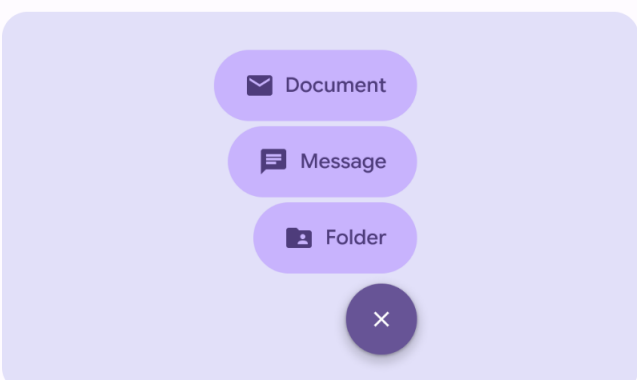


The FAB menu uses contrasting color and large items to focus attention. It can open from any size FAB.

Differences from M2



M2: The speed dial used small round FABs



M3: The FAB menu uses dynamic color and a larger item size
