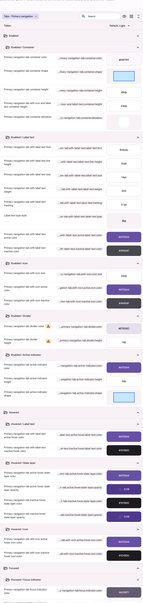
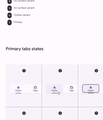
Tokens and specs

Select a component variant below to see its elements, attributes, tokens, and their values.



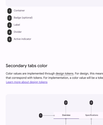
Primary tabs



- Container
- Divider (optional)
- Icon (optional)
- Text
- Indicator
- Focus indicator

Primary tab color

Color values are implemented through design tokens. For design, this means working with color values that correspond with tokens. For implementation, a color value will be a token that references a value. Learn more about design tokens



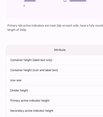
Primary tab color roles used for light and dark schemes

- Surface
- Text
- Icon
- Primary
- On surface variant
- On surface
- Outline variant
- Outline

Primary tab states

- Inactive (active destination)
- Inactive focus (active destination)
- Inactive hover (active destination)
- Inactive pressed (active destination)
- Active (active destination)
- Active focus (active destination)
- Active hover (active destination)
- Active pressed (active destination)
- Inactive (inactive destination)
- Inactive focus (inactive destination)
- Inactive hover (inactive destination)
- Inactive pressed (inactive destination)
- Active (inactive destination)
- Active focus (inactive destination)
- Active hover (inactive destination)
- Active pressed (inactive destination)

Secondary tabs



- Container
- Divider (optional)
- Icon
- Text
- Indicator

Secondary tabs color
